Dear Deputy Karen Wilson,

You are very highly regarded in your role as Jersey's Health Minister and from the information that I have gleaned, you have also worked in the hospital itself, so you truly know how the system works. So what I don't understand is how, with such an incredible woman like you in charge, we still don't have free health care for children?

We should have free health care for children. Article 6 of the Convention on the Rights of a Child clearly states that the Government (as duty bearers) must make sure that children survive and develop in the best possible way. Surely for this to happen, we must ensure that all children have access to free health care and are not limited by money.

Some GP surgeries charge money for children's appointments and some don't. I don't think this is fair and I hope you will consider free health care for all children under the age of 18.

Thank you for reading my letter.

Yours Sincerely,

Sophie
