Home Learning Overview for Year 6 – Week Beginning Monday 27th April 2020

We’ve really enjoyed sharing all your learning with you on SeeSaw last week, well done everyone! We have provided the following learning tasks for the week ahead across a range of subject areas. We understand that situations will differ hugely amongst families, but as a school, it is our ultimate aim to deliver consistency in learning at this tricky time. Please complete the learning tasks as creatively and as flexibly as you need to. Make the learning work best for you in your household – some may be inaccessible… we understand. If you have any questions about the tasks, you can email class teachers who will try and help you. RRS: Article 28: Every child has the right to an education

**English: Reading**

**Online (Seesaw):** In order to ensure we are covering the necessary reading genres for Year 6 this week we will be looking at poetry. We would love to hear you perform a poem of your own choice. We are looking forward to seeing and hearing some fantastic performances full of expression.

**Offline:** Look through the latest copy of First News (on our website) and find an interesting article to read. In your Home Learning book record a summary of the article. Make sure you reflect on the article and express your own personal views - Do you agree/disagree and why? Is there any vocabulary you need to clarify?

**English: Writing**

Continuing with your time capsule lessons, write out your own article using the topic of Covid19. Explore Lesson 2 on the attached document:

- List the features of an article supported by the link in your Home Learning Books.
- Plan your article using the subheadings.
- Use any format to create your article and upload it to SeeSaw.
- Make it interesting, keep it factual and always think about ‘upleveling’ your work by thinking about your SPAG line… will you make me say WOW to your gripping article?

**Maths: Theme Park Continued!**

It’s been great to see so many of you making a start with your theme park investigations. The designs have been amazing, and we can’t wait to see how they progress this week.

**Reminders:**

You will need to download the special project pack- you will also find this on our Year 6 page on our website. You don’t have to have a printer at home - you can do this all in your home learning book. Just remember to draw out your 100 square grid carefully.

We’d love to see your pictures of your finished Theme Park when you’re done! Send us a picture to the ‘Proud’ activity on SeeSaw if you wish to share it!

**Maths: Mini tasks (Seesaw)**

Every day this week there will be a new mini maths problem posted for you to solve on SeeSaw. We are looking for you to apply your reasoning and explaining skills to talk us through your thinking and evidence your ideas with the drawing tools.

**Science: Healthy Food (Seesaw)**

Can you design a balanced three course meal menu (using tasty vocabulary)? Record your Starter, main and dessert in your Home Learning Books. Explain your choices of ingredients and how they contribute to our everyday healthy living (muscles, energy, minerals, carbohydrates).

Extra Task: Create your three-course meal with the assistant of an adult, work together to create a healthy feast. Send me your videos and photos of your process and final meals!

**Art Task: Plane Window View**

It has been a hard couple of weeks staying in and missing out on seeing the sights, some of you have even had to cancel holidays away! So instead, your task is to create the next best thing – a scene fit for a front cover of a holiday magazine!

Use the attached document to get inspiration from Jim Darling and see what materials and methods you need to create a fantastic scene. Your final piece can be uploaded to SeeSaw.

**History: Shakespearean Era**

Choose one of your Homework pieces from the homework grid that you would like to revisit and up level. Take this time to think how your piece could be improved. Use your Home Learning Books or whatever format suits your task best. Send me photos of your creations!

**PE (Seesaw)**

Watch out for Mr Carnegie and his PE Challenges. It would be great to see you attempting these or if you’re keen post a clip of a skill you have mastered during lockdown. It can be anything from toilet roll keepie-uppies to a cartwheel or even a dance routine you have perfected!
