## National curriculum 2014

Maths objectives - Year 1

Objective	Child Speak Target
Count to and across 100, forwards and backwards, beginning with 0 or 1, or from any given number.	I can count up and down from 0 to 100 and more.
Count, read and write numbers to 100 in numerals.	I can count, read and write numbers up to 100.
Count in multiples of twos, fives and tens.	I can count in 2 or 5 or 10.
Given a number, identify one more and one less.	When you show me a number, I can tell you what is one more and one less.
Identify and represent numbers using objects and pictorial representations including the number line, and use the language of: equal to, more than, less than (fewer), most, least.	I can find numbers on a number line when I am solving problems with questions using equal to, more than, less than, most and least.
Addition Subtraction	
Read and write numbers from 1 to 20 in numerals and words.	I read and write numbers from 1 to 20 in numbers and words.
Read, write and interpret mathematical statements involving addition (+), subtraction (-) and equals (=) signs.	I know and can use the maths symbols + - and = in a number sentence.
Represent and use number bonds and related subtraction facts within 20.	I know my number bond facts to $20$ - such as $1+5 = 6$ and $5 = 6 - 1$ .
Add and subtract one-digit and two-digit numbers to 20, including zero.	I add and subtract numbers up to 20 - such as 5+5 or 12-8.
Solve one-step problems that involve addition and subtraction, using concrete objects and pictorial representations, and missing number problems such as $7 = ? - 9$ .	I can solve some number problems such as 7 = ? - 9.
Multiplication Division	
Solve one-step problems involving multiplication and division, by calculating the answer using concrete objects, pictorial representations and arrays with the support of the teacher.	I answer maths multiplication or division problems with help from an adult and using objects to see what the problem means.
Fractions	
Recognise, find and name a half as one of two equal parts of an object, shape or quantity.	I know that a half is one of two equal parts, and I find half of a shape or a set of objects by sharing the shape or set into two equal parts.
Recognise, find and name a quarter as one of four equal parts of an object, shape or quantity.	I find a quarter of a shape or a set of objects by sharing the shape or set into four equal parts.

Measurement	
Compare, describe and solve practical problems for lengths and heights [for example, long/short, longer/shorter, tall/short, double/half].	I use words such as long/short, longer/shorter, tall/short, double/half to describe my maths work when I am measuring.
Compare, describe and solve practical problems for mass/weight [for example, heavy/light, heavier than, lighter than].	When weighing, I use the words heavy/light, heavier than, lighter than to explain my work.
Compare, describe and solve practical problems for capacity and volume [for example, full/empty, more than, less than, half, half full, quarter].	When working with capacity, I use the words full/empty, more than, less than, half, half full and quarter to explain my work.
Compare, describe and solve practical problems for time [for example, quicker, slower, earlier, later].	I can answer questions about time, such as Who is quicker? or What is earlier?
Measure and begin to record lengths and heights.	I can measure the length or height of something and write down what measure.
Measure and begin to record mass/weight.	I can measure how heavy an object is and write down what I find.
Measure and begin to record capacity and volume.	I can measure the capacity of jugs of water and write down what I measure.
Measure and begin to record time (hours, minutes, seconds).	I can measure how long something takes to happen - such as how long it takes me to run around the playground.
Recognise and know the value of different denominations of coins and notes.	I know that coins have different values - such as 2p, 5p, 10p and 50p.
Sequence events in chronological order using language [for example, before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening].	I use special time words such as before and after, next, first, today, yesterday, tomorrow, morning, afternoon and evening.
Recognise and use language relating to dates, including days of the week, weeks, months and years.	I can tell you the days of the week and months of the year and I can talk about weeks and months and years and what they mean.
Tell the time to the hour and half past the hour and draw the hands on a clock face to show these times.	I can tell the time and draw hands on a clock for to the hour and half past the hour times.
Shape and Position	
Recognise and name common 2-D and 3-D shapes, including 2-D shapes [for example, rectangles (including squares), circles and triangles].	I can name common 2-D shapes such as rectangles, squares, circles and triangles.
Recognise and name common 2-D and 3-D shapes, including 3-D shapes [for example, cuboids (including cubes), pyramids and spheres].	I can name some 3-D shapes such as cuboids and cubes, pyramids and spheres.
Describe position, direction and movement, including whole, half, quarter and three-quarter turns.	I can describe my position, direction and movement, including whole turns, half turns, quarter turns and three-quarter turns.
