MAPS is a training and educational programme developed in collaboration with artists and teachers to enhance the delivery and provision for art in schools. The project, now in the third year of delivery, has reached over one thousand students and continues to support creative partnerships between artists, schools and young people.

This exhibition **celebrates the art made by students** during 2023, displays a sample of the work created and describes the unique artist-led workshops through film and photography.

MAPS is the result of a partnership between the **Department for Children, Young People, Education & Skills** (CYPES) and Arthouse Jersey, supported by the **Government of Jersey** through the **COVID-19 Health & Social Recovery Fund**.

To complement this exhibition **Arthouse Jersey** are able to offer a series of **free family workshops** in sculpture, print and model making.

Book workshops via the QR code or visit our website for more information.
