Dear Mrs Wilson

I am writing to you to encourage you to make all children's doctors appointments free of charge.

Personally I don't think it is really fair that some children have to pay for their doctors appointments because all children have the right to good health care.

I know you probably work hard every day but please consider my idea and make children's doctors appointments free.

Your sincerely
Henry Skrivetis.

Dear Mrs Karen Wilson

I'm writing to you since we have been learning about children's rights for health care and have noticed that not all children are getting the rights they need like some kids get to see the doctor for snee and others dont, so we think that every kid under the age of 18 should also get a visit for snee. Also if someone can't afford to get an appointment for their kids you can try and imagine what could happen to them if they didn't get the care they need!

Please Help and fix this knowing that you're a duty bearer!

yours Sincerely

Indie!

Dear Mrs Wilson,
I am writing this letter to you because, I have noticed that some children aren't getting the same amount of ~~health~~ health care as other children. I don't think you are following article 4: Governments must do whatever they can to make these rights available for all children. It isn't fair that some children, ~~because~~ get to go to the doctors for free, and some have to pay a lot of money. Thank you for reading!

Yours sincerely,
Maddison

Dear Mrs Wilson,

At school we've been learning about UNCRF and we've realised that not every child has the care and as you're a Duty bearer you should help them. Like if some children can't afford to go to the doctors. They could get really sick and spread it and make a virus.

Yours sincerely

William Austin

Dear Mrs Willson,

This letter is about how some children have to pay for
Dr appointment and some don't. I hope it encourages you
to change that for the better.

Reason 1: Article 24 states that every child has the right
to see a Doctor if they need to and have healthy food to eat and
clean water to drink. But what if some people can't afford to
come.

Reason 2: You can't really give Jersey a ~~reputation~~ reputation of a good health service. ~~because of NCD.~~

Reason 3: Lastly, Article 6 says every child has the right
to life. And you can't make it a good one happily

Thanks to you, Karen! ^{Karen!} ^{60P} hence just change the rules.
Also just please think about it O.K. 

Yours Sincerely Arthur Sleath

Dr Mrs Wilson,

My name is Eleana, and I'm writing to you to encourage you to make all children's Doctor appointments free.

My first reason is right number 24. This right is the right to health, water, good and environment. It is not fair that some people may not have enough money for health care.

My second reason is right 23, again it is not fair that some people with disabilities might not have enough money for proper treatment.

Yours sincerely, Eleana. 😊

Dear Mrs. Wilson,

I want to speak about the UNCRC and how some of the children don't have those rights because article 4 is that governments (for this instance, you and your team), need to do whatever they can for children to have those rights available for them, and it's your job as one of the millions of duty bearers. Some people are having health problems but aren't able to get to the hospital but can't because it's too expensive, so I ask you to lower prices and remember article 24.

I really hope this will make the world a better place.

Yours sincerely, Eliana Smith.
